

FIC Application

The Finance & Investment Club (FIC) is the first organization at UC Davis to focus on both the technical and interpersonal environment of the business world. Our club integrates finance, accounting, and economics into our everyday operations. Through intensive training, members within our organization become well prepared for their future careers.

For motivated students interested in joining us, the following three components must be completed and emailed to fic.ucd@gmail.com.

Part 1: Cover Letter

Please prepare a professional cover letter that includes your school, work, any investing experience, as well as clearly express your reason for joining the club.

Part 2: Resume

Attach your resume behind your cover letter. Your resume should be one page and clearly state your class year, major, GPA, and work experiences.

Part 3: Stock Research Report

Choose a publicly traded company and analyze its investment appeal in a maximum 1 page report. This is your opportunity to show off as much of your investing knowledge as possible. Conclude the paper with your final opinion of the stock. Hint: Include a company summary, industry outlook, relevant news, financial data, and so on.

Congratulations! You have completed the application process. An FIC officer will contact you soon with regards to the next steps. We look forward to speaking with you soon. Our club meeting times are on Tuesday and select Thursday nights from 7-9pm so please keep these times open.
